plugged in and charging! If EV is not plugged in parking fees

## EV Charging Station Procedures:

The University supports your commuting decision to drive electric vehicles and asks that you follow the following procedures:

- For safety reasons, please remember to properly manage the EV charger cord during and after charging. Do not overstretch the cord and when done charging roll the cord properly back in place the charger
- Never park your personal gas vehicle in an electric vehicle space. The charging station is for electric or hybrid vehicles only. If a plug-in vehicle is parked in EV station spaces, please contact Public Safety (228) 200
- The University anticipates that the number of electric vehicles will exceed the
